Vision Doeve Brokers

Former sailing freighter that, after sailing as "Harle Tief" as a motor cargo vessel on the German Wadden Sea, has been converted into a seagoing charter vessel, and until recently, she was used as a Youth Care training ship. The Dutch charter certificates are expired. In our eyes she is very suitable as a sailing live aboard vessel which is suitable to sail in the coastal waterways of Europe. The interior of "De Tukker" is not luxurious, but simple, practical, and especially robust. The vessel is in our view highly suitable for obtaining a berth in various museum harbors.
