Vision Doeve Brokers

Luxe Motor, heavily built and in excellent condition, of the 1st owner. The ship is professionally built and luxuriously finished. She is provided with many comforts and extras. Many of these extras are used in commercial vessels such as a 360-degree rotating bow thruster and hydraulic spud poles. She is very suitable for the European canals and rivers, but the coastal waters are also possible. A great ship for a long or permanent stay on board.
