## Vision Doeve Brokers

Motor yacht from the Swedish yard Albin Marine. In 2015 Shipcare Lelystad has provided her with new anti-slip fields and an anti-osmosis treatment. Thereafter the underwater ship has been provided with 7 layers of epoxy. The costs of this were almost € 11,000. The warranty of 5 years is transferable to the new owner. The outer bearing of the shaft propeller has been replaced in 2016. So, the vendor has invested a lot in the ship recently. The layout from front-to-rear is as follows: V-bed, dinette, galley, toilet, roomy cockpit with steering position and seating area, aft cabin. This ship is equipped with a 115 Hp Perkins with a consumption at cruising speed (according to the vendor) less than 3 litres per hour at 1100 RPM.
