Vision Doeve Brokers

Former Dutch inland cargo vessel that has been converted into a Sailing Live Aboard barge. Due to the low air draft she is very suitable for the French canals but also other waterways in Europe she will do fine. All the steelwork above the rubbing strake has been renewed. Equipped with a spacious self-draining cockpit with seating area, large salon with many windows all around (most of them are double-glazed) and has 2 side sliding doors, making it very easy to get moored, a galley, bathroom with shower and an owner's cabin. The technic on board has been upgraded, for example, there is a Kalkman hydraulic bow thruster whose own diesel engine can also be used as a generator, but a separate generator set is also available. A barge that is well maintained and in our opinion a new owner will have a lot of pleasure with her.
