Vision Doeve Brokers

A former inland waterboat that has been converted into a Sailing Live Aboard Barge. The ship has a well-considered interior and her layout is as follows: in the forepeak there are 2 cabins, each with a 2-persons bed and a sink with hot and cold running water, midships there is a salon with dinette, a large galley and a bathroom, in the aft is the owner's cabin which is also equipped with a 2-persons bed and a sink with hot and cold running water. Furthermore, the ship has been equipped with a double steering position and a spacious aft deck where you can sit comfortably. Above the upper deck is a steel construction for a sun tent. You can also sit outside there. It is a ship that is very suitable for the European inland waterways, such as the French canals and rivers, but also Germany, Belgium and, last but not least, the Netherlands can be done.
