Vision Doeve Brokers

Inland hopper barge that is still completely under Dutch inland shipping class. Equipped with a neat and spacious aft cabin, wheelhouse with all necessary equipment, spacious engine room with generator and 2x main engine, midships a pump / generator room and further forward the front engine room. It is possible to get to the pump room and front engine room through an inside walkway. The forward cabin is equipped with 2 cabins, a shower and toilet room, as well as a salon with a small galley. A barge that, in our opinion, can still provide a nice bread and butter for a skipper's couple or she can be converted into a spacious home or can be used as a restaurant or luxury charter boat for inland waters.
