## Tjalk 19.88 casco

Dimensions (m)	19.88 x 4.25 x 1.00	Ref. no.	190506
Mooring	Near Leeuwarden, Netherlands	Year	1909
		Material	steel

## Vision Doeve Brokers

Former inland cargo barge whose steelwork has been fully tackled and is now ready to be built in by the new owner into a comfortable barge which the new owner can finish into a sailing Live aboard barge or as a recreational ship. With the conversion, it was taken into account that the ship can also be fitted out with a mast and leeboards to get her sailing again. The steelwork is very well done with an eye for detail. The hull is also in a good condition and the bad spots have been replaced (not overplated) and then properly preserved on the inside. The outside has been completely coated with a 2-component system. The wooden hatches can be opened and on port side there is an entrance into the hold realized. There is also a large entrance from the cockpit into the deckhouse. A new propeller shaft has already been installed. An interesting project for the handyman or to have it done by a yard.

## General information

Yard:	Shipyard NL-Kiel-Windeweer
Yard rebuilt:	Shipyard Talsma, NL-Franeker
Rebuilt year:	2018/2019
Hull shape:	flatbottom
Hull material:	steel
Deck material:	steel
