Vision Doeve Brokers

Newly built replica of the Dutch "Luxe Motor". Built by one of the better "barge" builders in the UK. The builder sold this type under the name "Mini-Luxe barge". The layout of the ship from front to back is as follows: a spacious cabin with 2x single bed, en-suite bathroom with electric toilet and a washbasin, a guest cabin with sink, a bathroom with shower, washbasin and electric toilet, a spacious salon with open galley and the wheelhouse with spacious seating area. Three solar panels and a whisper generator set ensure great autonomy, making it possible to moor "in the wild" as well. The ship is very suitable for navigating on the European waters. Due to the low air draft the Canal du Nivernais and the Canal du Midi are possible.
