Vision Doeve Brokers

Former inland cargo vessel, converted into a sailing recreational vessel. The vessel is equipped with a deckhouse and a hold which are fitted out as accommodation and of which the front part is still equipped with a wooden hatch cover. In our view, it is a beautifully lined Dutch barge that is built at one of the best Skuttsje shipyards. The underwater hull is almost completely doubled and according to the survey report of 2018, the thickness is good. The mast and the other spars need to be repaired or replaced. The seller has owned the ship since 2006 and has made many beautiful trips with the vessel, the last few years mainly in France.
