Vision Doeve Brokers

This former inland water food supply vessel (Parlevinker) has been transformed into a Cruising Live Aboard barge that is not only suitable for residential purposes, but also for recreational boating. The barge has a spacious upper deck that is equipped with double glazing in plastic window frames, providing sufficient light and comfort. At the front of the ship there is a cabin with a double bed and a separate toilet room. The ship's wheelhouse has two side doors and a staircase leading to the upper deck and a second staircase leading to the salon with an open kitchen. Further to the aft you will find the engine room, as well as a cabin with a double bed and a bathroom. This ship is, although simple in design, extremely functional and offers everything you need for living and sailing. She is immediately available for takeover, so you can quickly enjoy the unique life on the water.
