### Vision Doeve Brokers

An elegant sloop from the well-known brand Wajer. The Wajer Captain's Launch was developed based on the design of an English sloop from 1940. According to tradition, the sloop, named 'First Lady,' was the foundation of the company that emerged from this. The polyester hull has a thickness of 8 to 12 mm. The woodwork is a combination of mahogany and teak. At some places, the wood shows signs of overdue maintenance. In addition to hydraulic steering, there is also the possibility of steering with a tiller, giving you the authentic sailing experience. The propulsion is provided by a 3-cylinder Nanni diesel engine. In our view, this is a beautiful sloop with a rich piece of history in the Dutch boating industry.
