### Vision Doeve Brokers

Former inland waterway cargo vessel, which has been active as a line service. Ultimately, this potential Live Aboard Dutch Barge was converted and deployed as a sports fishing vessel. The current owner shortened the Vessel so that she does not have to meet the certification requirements. This also resulted in a nice length/width ratio. The hold is empty and the aft cabin is a technical space, with some of the old paneling still in place. The large forecastle still has the old accommodation. This Dutch Barge is certainly a big job, but the seller can take a lot of work out of your hands at his shipyard.
