## Vision Doeve Brokers

This Eurosleper 990 is a replica of a Dutch historic tugboat, built for recreational use, with a design that incorporates modern requirements. Unlike traditional tugboats, the aft cabin is not located behind the engine room but directly behind the spacious wheelhouse for improved comfort. With the forecabin and the funnel, this boat retains the authentic appearance of a classic tugboat. The exterior is in good condition, but the interior still requires some finishing work by the new owner. Unfortunately, the current owner is unable to complete this process. The hull was built by the well-known Dutch shipyard Talsma, a name synonymous with high-quality craftsmanship.
